The fourth edition of Sluice's peripatetic international expo is alighting in Lisbon's Barreiro district. Sluice Lisbon is an international expo of artist and curator-led projects exploring the impact of the ecological, environmental and political consequences contained within territorial systems.

The expo will run in conjunction with Lisbon Art Weekend.

Exhibitions, screenings, talks, and performances will be situated throughout the Barreiro community and industrial park. The exhibiting projects come from the UK, USA, Portugal, Germany, Denmark, Ukraine, Netherlands, Chile, Colombia, Hong Kong, Norway, Australia and New Zealand.

Territory is being jointly developed and delivered by Barreiro based **PADA** and London based **SLUICE** with support by the Câmara Municipal do Barreiro.

ABOUT THE ORGANISING PROJECTS

SLUICE is a UK based non-profit artist and curator-led initiative that since 2011 has worked exclusively with other non-profit artist and curator-led initiatives. Sluice is concerned with the impact of the societal and economic environment on the arts but also how the arts can in turn impact our societal and economic environment. Sluice has staged fairs and biennials in London, expos in New York and Berlin. Sluice publishes an eponymous biannual magazine.

PADA is an artist-led, non-profit arts organisation based in Barreiro in Lisbon's South Bay, located within the old Companhia União Fabril (CUF) industrial park. Created in 2018, PADA promotes interaction with the local community through projects and artistic interventions that engage with their environment. Over the last three years, PADA has worked with over 180 artists from more than 20 countries enabling 135 residencies and over 30 exhibitions.

QUOTES

"To be able to bring so many diverse projects together, from so far afield, shows that – even in, or perhaps because of the difficult times – there is a deep seated need and desire to transcend and show a unity via artist and curator-led creative endeavour."

Karl England
Sluice co-founder

"Barreiro, a small post-industrial suburb of Lisbon, has a long history of cultural associations and grassroots creative projects. Working alongside Câmara do Barreiro and some of the current associations that shape the art scene, PADA is proud to welcome Sluice and host the exciting international projects participating in this exhibition."

Tim Ralston
